

**Empowering Education with Every Pedal Push!**

In the heart of Chandur Railway, Amaravati, lies ZP Senior Secondary Marathi School, a beacon of learning for nearly 500 students each year. Yet, the journey to education is an arduous one, with many students trekking from distances of 10 to 15 kilometers. This challenge not only affects attendance but also hampers enrollment rates, creating a gap in the pursuit of knowledge.

Recognizing this hurdle, Avaada Foundation takes up the mantle to bridge the gap. In harmony with the vision of "Education for All" and the goals of "Sarva Shiksha Abhiyan," we're set to initiate a transformative program that will uplift the education landscape for these deserving students.

To ensure that the impact is felt where it's needed most, we thoughtfully devised a selection process. These young girls hail from BPL families, with some facing the unique challenges of having a single parent or none at all, residing with relatives for education, and those who brave over 10-15 kilometers to reach their classrooms.

We are immensely honoured to have distinguished guests who share our commitment to education. The presence of Pratap Adsad – MLA Dhamangaon Railway, Prashant Bhende – Panchayat Samiti President, Sandeep Bodhkhe – Amravati Block Elementary Education Officer, Sheela Lokhande – Tibsra Block Elementary Education Officer, and Pappu Bhaleroa – Social Worker Chandur Railway, adds weight to our collective mission along with Avaada Team.

By providing cycles, we are not just offering a mode of transport, but a means to a brighter, more inclusive future. Empowering these students will improve attendance and instill a renewed sense of determination to pursue education.
