

Press Release

Avaada Foundation is Transforming Lives and Building a Brighter Future Across India

New Delhi, 22nd September 2023 — Avaada Foundation (www.avaadafoundation.com), the philanthropic arm of the Avaada Group, continues to make significant strides in its mission to uplift and better society across 15 states in India. Since its inception, the Avaada Foundation has been dedicated to creating positive impacts in the fields of Education, Empowerment, Youth Development, Environment, Health, and Energy.

Education for All (SDG 4)

One of the foundation's flagship initiatives is the adoption of government schools in Mathura, Uttar Pradesh. Avaada Foundation is committed to transforming these schools by renovating dilapidated buildings and providing quality education in government institutions that rival private ones. Scholarships are provided to deserving and underprivileged students across the country, ensuring that bright minds have the opportunity to contribute to the country's progress.

Additionally, the foundation supplies resources to government schools, eliminating barriers to education for marginalized children. Smart boards have been provided in schools across Gujarat, Rajasthan, Maharashtra, Uttar Pradesh, and several other states. Furthermore, Avaada Foundation has distributed bicycles to needy female students to ensure they can attend school without transportation constraints. Digital learning centres have been established in remote areas, along with community development centres aimed at uplifting communities as children are being given tuition, Spoken English classes, Entrepreneurship workshops, motivational speeches by experts, and career counselling for their all-round development. To ensure quality education, we have implemented the 'mind opening technique' in government primary schools. The Avaada Foundation has revolutionized a boarding school by installing a cutting-edge solar water heater. Additionally installed solar panels, guaranteeing an unceasing power supply. This visionary endeavor is set to empower students with an environment conducive to learning, ensuring uninterrupted access to electricity, and thereby illuminating their educational journey.

The Avaada Foundation, in its unyielding pursuit of community welfare, has established a pioneering Model Anganwadi Centre in the vibrant state of Rajasthan. This initiative stands as a beacon of hope and progress, redefining the standard of care and education for the youngest members of the community. The centre embodies a holistic approach, seamlessly integrating early childhood education, nutrition, healthcare, and maternal support. It boasts state-of-the-art facilities, ensuring a safe and stimulating environment for children to learn and grow. With a dedicated team of trained caregivers and educators, the Model Anganwadi Centre sets a new benchmark for early childhood development in the region.

Healthcare Initiatives (SDG 3)

In the healthcare sector, Avaada Foundation has been a pillar of support, particularly during the COVID-19 pandemic. The foundation has set up COVID-19 care hospitals in Gujarat,

Maharashtra & Rajasthan. Avaada Foundation has provided 24X7 community health emergency transportation facilities catering 40 KM radius of health services of local communities in Bikaner tehsil of Bikaner, Rajasthan. The foundation has been organising health checkup camps, eye checkup camps, and distributing free medicines to those in need. Regular health tests and checkups are facilitated to ensure the well-being of the underprivileged. We provide state-of-the-art first aid training by experts in villages to train youths in any unforeseen happening. Avaada Foundation extends to celebrating international events like International Yoga Day. The foundation observed International Yoga Day in the Prime Minister's adopted villages with two thousand students and with its employees on all project sites, fostering the importance of physical and mental well-being. The Foundation, with its unwavering commitment to community welfare, organized the Healthy Baby Competition. This unique program employed five crucial indicators to gauge the health status of these young cherubs.

The Avaada Foundation extends its assistance beyond human health, offering door-to-door free health services to cattle farmers in Rajasthan during animal health emergencies such as Lumpi skin disease. Moreover, the foundation supplies free fodder to farmers in Gujarat and Uttar Pradesh.

Empowering Youth and Women (SDG 5)

Youth development has been a core focus, with the foundation establishing sports fields in villages and providing sports materials to schools to promote sports and games among the youth. In a bid to empower women, Avaada Foundation has trained them in handling gadgets, offering employment opportunities. Women have been provided with training in makeup artistry, tailoring, and coding, enhancing their skill sets and opening doors to the job market.

Sustainable Energy Initiatives (SDG 7)

The foundation's commitment to sustainable energy is evident through the installation of solar plants in remote villages in Ladakh and the Prime Minister's adopted villages of Jayapur and Nagepur, contributing to a greener future. We have set up off-grid rooftop solar systems in government schools in Maharashtra, Rajasthan & Uttar Pradesh.

Fighting Hunger (SDG 2)

Avaada Foundation also actively contributes to the fight against hunger by regularly distributing ration bags to the helpless, ensuring that nobody remains hungry in the country.

Nurturing Greenery (SDG 13)

In a monumental effort to combat climate change and promote a greener India, Avaada Foundation has planted using Miyawaki's technique and meticulously cared for over one lakh trees. These saplings have flourished into mature trees, contributing significantly to local ecosystems and environmental health. The foundation's tree plantation drive is ongoing, with a commitment to expanding this green legacy on a large scale.

Avaada Foundation remains steadfast in its dedication to creating a positive impact on society, forging a brighter and more equitable future for all.
